Monthly Rekap

Lantern Grooming Demo

Aug 1, 2026 to Aug 31, 2026 / Grooming / America/New_York

2
Clean completed visits
Within the reporting period

2
Owners to review
Recovery List at period end

2
Eligible pets
Pending owner review

Executive readout

The Recovery List contains **2 lapsed pets and 0 overdue pets** without a recorded future booking. These are review candidates; no contact, return visit or recovered revenue is implied.

Return patterns at period end

Status	Pets	What it means
On track	0	Less than 0.9 times their normal return interval
Due soon	1	From 0.9 to 1.1 times their normal interval
Overdue	0	More than 1.1 and up to 1.6 times their normal interval
Lapsed	3	More than 1.6 times their normal interval
Needs data review	1	Held out while source records are checked
Not enough history	1	No reliable return pattern yet

1 pet has a future booking and is excluded from recovery targeting. Status counts cover all 6 tracked pets, including holds and booked pets, so they differ from Recovery List counts.

Human review before use

Check source mapping, completed visits, current bookings and any held records.

Review eligible owners and pets, then record the owner decision in the full Recovery List.

A human must approve the final files and perform any delivery. This draft is not approved.

Reporting notes

History: Jan 1, 2026 to Aug 31, 2026. 13 clean visits across 4 owners and 5 pets with completed history. These are history totals.

Source: 16 rows. 1 pet needs data review, including 1 with a created-after-appointment hold. 1 pet lacks sufficient history.

Dates are inclusive local source dates. Source-completeness and mapping confirmations are human attestations, not independent verification.

Recovery List

Lantern Grooming Demo

Aug 1, 2026 to Aug 31, 2026 / Grooming / America/New_York

Rank follows relative lateness, then days since the last completed visit. Pets remain grouped by owner. The list does not predict who will return.

Priority and owner	Status	Usual interval	Days since	Service value*	Future booked	Decision Outcome
1. Fictional OWNER-A OWNER-A / PET-A	Lapsed	30.5 days	122	Unavailable	No	Pending No Action
2. Fictional OWNER-C OWNER-C / PET-C2	Lapsed	30.5 days	122	Unavailable	No	Pending No Action

List coverage: 2 of 2 eligible pets across 2 of 2 eligible owners shown. The complete recovery_list.csv is the editable review record.

*Completed service value over the history window, before refund adjustments. Currency is unspecified; amounts have no currency symbol. 2 of 2 Recovery List values are unavailable. Values are not net revenue or expected recovery revenue.

How to read this list

Pet identity: IDs below each name show owner / pet. A shared owner does not make pets interchangeable. Check all pets in that owner's complete group before a decision.

Review status: Pending and No Action are initial values. They do not record contact, approval, a booking, a completed return visit or recovered revenue.

SYNTHETIC DATA. Do not contact anyone from this example. Names, IDs and activity are fictional. Current bookings, prior contact, recipient and pet identity, channel permission and opt-out status must be checked by the owner before any real-world use.

NOT SENT / NOT APPROVED. Producing this PDF does not approve the content or authorize delivery. No outreach text is included.
